COMMERCIAL DRIVERS TRAINING

Classes Run Every Other Month

CDL Driver Training

Why a CDL?

Driving a Commercial Motor Vehicle (CMV) requires a higher level of knowledge, experience, skills, and physical abilities than that required to drive a non-commercial vehicle. In order to obtain a Commercial Driver's License (CDL), an applicant must pass both skills and knowledge testing geared to these higher standards. Additionally CDL holders are held to a higher standard when operating any type of motor vehicle on public roads.

In partnership with PA Pride, LLC., Lenape Tech Adult Education's CDL program will provide premier driver training services that will enable each student to obtain the skills to lay the foundation for a successful life on the road.. Together, we believe it is imperative that all drivers have safety and responsibility built in to their everyday driving habits. Whether your personal vehicle or becoming a professional commercial driver, Lenape and PA Pride are committed to providing the best training the industry has to offer.
